

Indiana's no call list as greatly reduced the number of phone calls I receive from companies which were continually interrupting my evenings at home. After working all day, I did NOT want to argue with some sales person over whether or not I "needed" their service. If I want information or some service, I will call them when it's convenient for me. I don't want to have to pay extra phone charges to get caller ID just so I don't have to talk to these companies every evening. If the Federal Government wants to make the decisions regarding the state's no call list, I don't want the regulations reduce from what we already enjoy!
